Atlas INDEX TO MITCHELL'S ANCIENT ATLAS.

In this INDEX, which is made for the sake of easy reference to the ANCIENT ATLAS, the first column contains all the Names in the Classical Maps; in the second, the class—as Towns, Rivers, &c.—to which each belongs, is designated; in the third, the country in which each word may be found is given; in the fourth are the Numbers of the Maps; and in the fifth, the Modern Names of such places as are known at the present time. The Names in the Scripture Maps are arranged separately, at the end of this Index and in a similar manner.
